(a) whether the Union Government has approved a proposal to establish model hospitals with research and training facility in the country;

(b) if so, the details thereof, State-wise;

(c) the expenditure likely to be incurred thereon; and

(d) the extent to which it will help in improving the maternal and child health care and also in reducing the mortality rate across the country?

Answer

THE MINISTER OF HEALTH AND FAMILY WELFARE (DR. ANBUMANI RAMADOSS)

(a)to(d): A statement is laid on the Table of the House.

STATEMENT REFERRED TO IN REPLY TO LOK SABHA STARRED QUESTION NO. 102 FOR 29TH NOVEMBER, 2006

The Government approved the Pradhan Mantri Swasthya Suraksha Yojana (PMSSY) scheme in March, 2006. Under the scheme, it is proposed to set up six (6) new AIIMS like Institutions and upgrade 13 existing Government Medical College Institutions.

Each new AIIMS like Institution would have 850 bedded Hospital (500 General Beds, 300 Speciality/Superspeciality beds and 50 beds for ICU/ Trauma) and would have 39 departments covering all major disciplines. Each Institution would also have an intake capacity of 100 Under Graduates per year and a similar number of seats in Post Graduate/ Post Doctoral courses. The estimated cost for setting up each institute is Rs 332 Crores based on CPWD plinth area rates.

The 6 AIIMS like institutions are proposed to be set up in the states of Bihar (Patna), Chattisgarh (Raipur), Madhya Pradesh (Bhopal), Orissa (Bhubaneshwar), Rajasthan (Jodhpur) and Uttaranchal (Rishikesh).

The State Governments have provided a minimum of 100 acres of land and agreed to provide facilities for Water, Electricity supply and road connectivity. The Government of India has initiated the following activities viz. Pre Construction Survey (geo-technical, topographical & hydrological), Environment Impact Assessment (EIA) study. The work of construction of boundary wall has been completed except in Patna where it would be completed by end of December, 2006. A Prototype Architectural design has been selected through a Global competition bid. The process for preparation of Detailed Project Report (DPR), selection of Project Management Consultant and model of execution is being finalized.

In addition it is also proposed to strengthen 13 existing Medical College Institutions in terms of infrastructure and equipments. List of Institutions being upgraded is annexed. The Government of India is investing Rs 100 Crores for each institution and the State Government`s share is Rs 20 Crores. In respect of SVIMS, Tirupati, the TTD trust is bearing half of the cost ie. Rs 60 Crores, and the GOI share is only Rs 60 Crores. Likewise, in respect of IMS (BHU) Varanasi, which is a GOI institution, Rs 20 Crores is being provided by Ministry of Human Resource Development.

The building up of capacity in tertiary healthcare, medical education and research in the deficient regions of the country would help provide trained manpower and improve accessibility of quality health care to the people. It will also provide the necessary referral linkage between primary, secondary and tertiary level care facilities and a leadership role to the CHCs/District Hospitals of the region. The setting up of these AIIMS like institutions would, therefore, help build capacity of the Primary Health care delivery system for improved quality of maternal and child health care services.

Annexure

Upgradation of 13 medical institutes under PMSSY

The following 13 medical institutes have already been identified for upgradation under PMSSY.

1. Government Medical College, Jammu (J&K)
